

Blind. So What?

In this workshop, Blind bassist Ciara Moser will show you innovative techniques of ear training, memorizing, structuring and analyzing music in order to learn on the band stand or prepare for a gig with short notice. We will work on the connection between the ear, the instrument and the brain.

Improvisation / auditions:

This workshop will help you to enhance your skill set for improvisation and prepare you for tackling auditions. You will work on your harmonic and rhythmic tool kit for bringing improvisation to the next level and executing that in a musical sense. Ciara will provide important facts and advice for getting ready for auditions and presenting yourself in the best way possible.
